Welcome! Please read the following form and sign/date it at the bottom to ensure that you understand my professional relationship with you as your Equine Assisted Psychotherapist.

As your therapist, I am licensed by the State of Texas as a professional counselor and trained in Trauma Focused Equine Assisted Psychotherapy. Additionally, I am trained as an Equine Professional and serve in the dual role of understanding both horse and human psychology. I use the Natural Lifemanship model in our equine therapy, which may involve both ground and mounted work, to address trauma and other issues you may be working through in the counseling process.

Sessions are an hour long at a rate of \$175 per session, which covers both my therapist fees as well as use of the horses and the facility, South Wind Equestrian Center. Except in case of an emergency, please allow 24 hours for cancellations to avoid being charged a \$100 late cancellation fee. A no show with no notification will be charged at the full rate of \$175.

As the client, you understand that while I will make every attempt to monitor your safety while you are working with your horse both on the ground and while mounted, I carry no liability for any injury caused while you are engaged in equine therapy.

Counseling Confidentiality

What you share with me and any records kept regarding your counseling will be held in strict confidence. Clinical records of your treatment will be securely maintained for at least the time frames required by law. Exceptions to confidentiality include serious threats to health/safety, child/elder abuse, and judicial/administrative proceedings involving a court order regarding your records. While there may be other therapy sessions or riding lessons occurring in other round pens during your session time, I will do my utmost to safeguard your privacy and confidentiality.
